

ALPHAHEAT

PRODUCT DATA SHEET

Pipe Decoiler

- ✦ The decoiler is designed to uncoil the pipe during the installation of underfloor heating systems.
- ✦ It improves the efficiency and comfort of the installer's work, and the installation and removal of the device are carried out quickly and efficiently.
- ✦ The decoiler is made of high-quality galvanized steel profiles, which makes it very durable.
- ✦ In addition, it is equipped with a pipe guide, which allows its stable unrolling.
